

# EARLY BRITAIN

AUTUMN TERM

## English

In English we will create pieces of work around Neolithic and Roman Britain. This will include looking at letter and diary writing. We will look at writing from different perspectives and including historic details.

## Science

In Science, we will begin by exploring the topic of *Light and Shadow* by looking at reflection, refraction and how our eyes work. We will then look at *Electricity*, exploring the components of circuits and creating some working examples.

## History

In our topic on Early Britain, we will look first at the stone, iron and bronze ages before turning our attention to the Roman Empire and how it impacted Britain.

## Maths

In maths we will be working on place value, decimals, fractions, negative numbers, prime numbers, square and cube numbers and order of operation.

## Music

We will be learning about pop songs, starting with Happy by Pharrell Williams.

## Art and DT

We will be recreating cave art, as well as mosaics, chariots and Roman shields.

## ICT

ICT this term will focus on E-Safety and creating websites.

## PE

We will start the year with a mixture of cross country and hockey skills.

## RE

Mr Rose will lead the class in exploring Jewish festivals including Rosh Hashanah.

## French

We will be learning vocabulary and conversational skills based around talking about our homes.

## PSHEE

PSHEE this term will be linked to E-Safety in ICT, before moving on to look at what makes up someone's identity.
