

Topic - A History of Britain

During this topic, we will link together our previous learning, understanding where historical periods and events fit together in the history of our country. We will look more closely at different monarchs through history with a particular focus on the Victorian era. We will also be looking at the physical geography of the UK and how the landscape has changed over time.

Art / Design

Through topic work, the pupils will undertake a range of art and design activities, including looking at examples of technical drawing and recreating this using accurate measuring. We will complete a design project using linkages and begin to understand real world applications for this.. We will also be working on art projects for the summer show entries.

Music - Singing

We will continue our music with singing, especially songs from musicals as we prepare for our summer show. We will be learning to sing in time with others to musical accompaniment and also to sing in parts. Additionally, we will be using material from OperaNorth to investigate the instruments of the orchestra.

RE

The study of RE will give opportunities to promote an ethos of respect for others, challenge stereotypes and build understanding of other cultures and beliefs. This term the children will be taught about Islam. PSHE will include mindfulness, relationships and changes.

**A History of Britain
Curlew Class Curriculum
Information Summer 2024**

PE

This term, most children will be swimming under the instruction of specialist teachers from the Wentworth Leisure Centre. They will be taught all of the basic strokes as well as general water safety, with the aim that every child will be able to swim at least 25m. Additionally we will be focussing on batting and fielding skills as well as athletics. Everyone will also get the experience of competition through our sports day and through other athletics events which will be held over the course of this term.

French

This term the children will continue learning French with Mrs Mason. The emphasis will be on speaking and listening using rhymes and conversation. The children will be focusing on acquiring the vocabulary to greet people, numbers, food and drink.

Science - Evolution and Inheritance

This term the pupils will learn about how animals and plants have adapted over time to become more suited to their environments. We will be looking at examples of inheritance and why animals change over time. We will also be finding out about the reasons that some plants and animals become endangered or extinct and about what we can do to help prevent this. This topic links with our awareness about the impact that humans are having on our world.

Computing

Computing will be taught across the curriculum and include e-safety, programming, and combining text and graphics using a variety of software.
