

## English

In English we will focus on story writing: using dialogue to advance the plot and to build up characters. We will also write newspaper articles linked to our topic of the First World War.

## Science

In Science, we will be learning about the human body, including the circulatory, digestive, respiratory and nervous systems. We will undertake a number of experiments in order to deduce how our bodies keep us alive.

## History and Geography

In our topic on the First World War, we will see how local people contributed to this huge conflict and how it changed the world forever.

# First World War

Spring Term  
2024

## Music

We will be listening to and singing the music of songwriter Carole King.

## Art and DT

Pupils will be using hydraulic and pneumatic systems to create their own WWI tanks!

## Maths

In maths we will be working on converting fractions to decimals and percentages. We will move on to look at 2D geometry, including perimeters, area and angles.

## ICT

We will be looking at how we can use video editing software to create movies.

## PE

Mr White will teach gymnastics and Mr Rose will teach volleyball.

## RE

Mr Rose will lead the class in exploring what it means to be a Muslim in Britain today.

## French

We will be learning to express opinions and preference within the topic of eating and cooking food.

## PSHEE

We will focus on democracy as a British value. We will see how UK citizens can take an active role in democracy and how we are represented in parliament.
