

Topic - World War 1

In our History topic we will be looking at World War I, including life in the trenches and at home. We will create a news report and look at Christmas in the war. We will be writing diaries, looking at poetry, investigating sources of information and presenting our findings in different ways.

Art / Design

Through topic work, the pupils will undertake a range of art and design activities, taking inspiration from our WW1 topic and using different media. We will be experimenting with colour and detail in painting as well as using wider variety of materials to add texture.

Music - Singing

We will be learning all about group singing with the help of our teacher from the Music Service. We will take part in various activities to build listening skills and practise keeping in time. We will also have the opportunity to sing in parts and use harmony.

RE

Our RE Topic this half term will focus on the question "What does it mean to be a Muslim in Britain today?" Here we will look at key beliefs such as the five pillars of Islam and explain how these affect the daily life of Muslims. We will look for similarities and differences between the life of a Muslim and other people in Britain today.

World War 1
Curlew Class Curriculum
Information Spring 2024

PE

Curlew class will be starting off with gymnastics, aiming to use the inside space and equipment to maximum effect, including climbing and vaulting as well as rolling and balancing. Additionally, children will take part in training geared towards inter-school competitions and the dance festival. The children will take part in high energy outdoor sports when the weather permits, such as cross-country running.

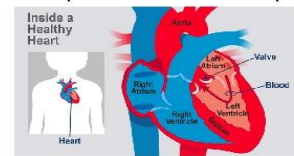

French

This year the children will be learning French in class. The emphasis will be on speaking and listening using rhymes and conversation. The children will be focusing on acquiring the vocabulary to greet people, numbers, food and drink.

Science - Circulation and Digestion

In Science we will be looking at system of the heart, lungs and blood vessels works within the body.

We will also study the digestive system, including teeth, and the importance of a healthy diet.

Computing

Computing will be taught across the curriculum and include e-safety, programming, and combining text and graphics using a variety of software.
